

THE BILL BROOKMAN FOUNDATION ANNUAL SUMMER RESIDENCY OF HEALTH, HEALING & THE ARTS SUNDAY 18TH – 23RD AUGUST 2013 (PROVIS.)

Brochure

IN A BEAUTIFUL COUNTRY HOUSE in a hidden valley in Leicestershire *The Bill Brookman Foundation Annual Summer Residency of Health Healing & the Arts* is a unique opportunity to explore art, philosophy, ideas and body/mind/spirit.

We attract a like-minded group of people with an international outlook from art, dance, medicine, education and international development who not only celebrate the opportunity to interact with each other, but also to stage meaningful community arts events in venues of great beauty as well as deprivation.

This summer residency nurtures the much more demanding projects which the Foundation implements with major international organisations concerning the arts and armed groups, abducted children and atrocity victims world-wide. (Our present projects include Haiti and Somalia)

Participants can look forward to sharing experiences with members of our partner organisation the 101 Performing Arts group comprising young people and children who love dance and performance. We share time with them and join them staging performances and community arts activities.
